South African Radio League * Suid-Afrikaanse Radioliga
Member Society of the International Amateur Radio Union since 1925

Volume 15, Issue 08, the week of 27 February 2017

Provisional results of the South African Radio League National Field Day

The Committee has received 26 logs and 1 check log for the February leg of the National field Day. Thank you to those stations who submitted their logs using the MS Excel spreadsheet and not tampering with the formulae. Unfortunately there were logs that had to be re-scored due to tampering with the formulae.

The rules are quite clear about the name of your log - "your call sign NFD" - a number were received without the call sign! Obviously, the rules are not read.

Lesotho, 7P8 (Update/QRT). Gene, K5GS, sent out the following press release on 22 February, for Pista, HA5AO, who was active as 7P8EUDXF from Lesotho for humanitarian purposes during the month of February [edited]: Pista, HA5AO, is operating from the Molangoane Lodge, near Ha Ntsi. The lodge is located on a plateau with no high mountains nearby. The take off to the N and NW it is clear. The NE to JA is slightly blocked by a mountain, but it is far enough away to not cause too much of a problem. He is using a K3 with KPA 500. The antenna is a wire vertical on a 10 metre fiberglass pole with a remote controlled SGC 250 auto tuner. There are 12 x 10,5 metre radials with a copper ground rod. It can be tuned from 80 to 10 m, sorry no TB capability this trip due to high noise levels. The noise is s6 s9 on the low bands making the copy impossible and s3 s5 on the higher bands where copy is difficult. RFI is not a problem, at least no complaints from the lodge management. He received a Busted call request claiming QSOs on 20 February between 15:10 and 16:27. He was not operating at that time, probably a pirate. He is operating in his free time from the orphanage project. The last operating time will be this Saturday morning when he will disassemble the station. He departs for Budapest on Sunday morning. The log is at <http://ha5ao.com>, Log search and OQRS

Tanzania, 5H. Maurizio, IK2GZU, will be active again as 5H3MB from Illembula, Tanzania between 14 March and 12 April, while doing volunteer work for the local mission. QSL via Club Log's OQRS, LoTW and eQSL; traditional cards via IK2GZU (direct or bureau).

Ceuta and Melilla, EA9. Nobu, JA0JHQ, will be active as EA9/JA0JHQ from Melilla between 20 and 21 March. Activity will be on mainly on 17 and 15 metres, possibly 40 and 30 metres, on CW and RTTY, using a TS-480HX (w/100 w) into a Micro-vertical (2,5 m pole on the balcony). Log will be posted to ClubLog daily. QSL via JA0JHQ, direct, by the Bureau and LoTW (after his return). For more details and updates, see <http://pandasan.jimdo.com>

Ghana, 9G. The Six G Team (Bob, 5B4AGN, Steve, G3VMW, Alan, G3XAQ, Fred, G4BWP, Neil, G6MC, Iain, MOPCB) will operate as 9G5X between 7 and 21 March with 3 stations on 160 to 10 m (CW, SSB, RTTY). QSL via M0OXO, LoTW; do not send via bureau please.

St Patricks Day 2017 on Air

The worldwide St Patricks Day celebrations are nearly upon us. Once again it is hoped to turn the bands green as part of the St Patrick Award on 17 and 18 March. Whether as an official station or a chaser why not join the celebrations and go green. For more information go to <http://stpatrickaward.webs.com/>

African Islands

IOTA frequencies

CW: 28 040 24 920 21 040 18 098 14 040 10 114 7 030 3 530 kHz
SSB: 28 560 28 460 24 950 21 260 18 128 14 260 7 055 3 760 kHz

Canary Islands, EA8. Javier/EA1FDI will be active in the ARRL SSB contest as ED8W. QSL via LoTW.

Chagos, VQ9. Jeremy, N1ZZZ, will once again try to be active as VQ9ZZ from Diego Garcia (AF-006) sometime between late April and mid-June (subject to change). He was there in December, but did not operate and states, "I have renewed my VQ9ZZ license, but since the club shack is gone, I didn't get to work from the island this trip. I am hoping to bring the proper equipment for some 'field day' style operating in April 2017.... The club station (VQ9X) has dismantled a few years ago, so the few of us left to operate there have to bring portable set ups ashore which makes for challenging operating conditions, especially with the bands such as they are." He informs OPDX that he will operate this time on 20 and 17 metres, SSB and various low power Digital modes using a Icom IC-7100 transceiver with wire vertical antenna. There may be some operations as VQ9ZZ/MM (not for DXCC credit) from the ship when underway using same modes/bands and better antenna. QSL via his home call sign, direct, by the Bureau or LoTW.
